OBJECTIVE

Full-stack developer specializing in Laravel, React, and Vue, passionate about building scalable web applications and solving complex problems with efficient, user-centric solutions. Experienced in integrating AI/ML services such as Vertex AI, Google Cloud Vision, and Google Document AI into production web apps, and eager to apply modern web and AI technologies to contribute to a dynamic, high-impact engineering team.

EDUCATIONS

Degree of Aerospace Engineering **2013 – 2018**
Universitas Nurtanio Bandung
Jawa Barat, Indonesia
CGPA: 3.61

Aircraft Design, Aerodynamics, Flight Dynamics, Basic Programming (C/C++) *Related coursework*
Flight Control, Finite Element, Turbine Engine, Aircraft Structure

UNNUR Aero Maintenance Training Center (UAMTC) **2013 – 2018**
Jawa Barat, Indonesia

Inspection Technique, Human Factor, Ground Support, *Related coursework*
Airframe Maintenance, Aircraft Maintenance Management

CERTIFICATE / SPECIAL COURSE

- Software Engineer Full Reskilling Programme (JS ES6 React Node.JS MongoDB GO) by AirAsia Academy
- A1 Indonesia Airframe basic license
- A4 Indonesia Turbine Engine basic license

WORK EXPERIENCE

Full Stack Engineer at Technerve Technology Solutions Sdn Bhd. **May 2023 – Present**

- Preparing Software Design Document (SDD) based on the SRS developed by business analysts. Developing source code based on prioritized issues/requirements using Agile Frameworks for front-end and back-end.
- Performing bug fixing based on user feedback and User Acceptance Test (UAT) results.
- Conducting R&D activities in system integration for software enhancements developed by Aeronerve
- Develop:
 - **TerraAgra** – crop analysis and field monitoring platform with integration to satellite imaging (Sentinel-2) for large-scale agricultural data analysis
 - **Inerva Manpower** (Manpower Management System)(AI Search-**Vortex AI**)(Extract Poster Data-**Google Vision**, **Google Doc Ai**)
 - **Inerva CCU** (Assets Management System)
 - **Inspect** (Certificate Generation System)
- Main tech stack: **Laravel, React, JWT, Tailwind CSS, shadcn/ui**. Also worked on projects using **Node.js, Next.js, and Vue.js**. Cloud & AI: **Google Cloud (Vertex AI, Cloud Vision, Document AI)**, CI/CD with GitLab, deployment to DigitalOcean

IT Engineer at Avialite Sdn. Bhd.**October 2020 – April 2023**

- Designed and developed Wireless Alarm Monitoring website (**PHP-Laravel**), Remote WorkStation website (**PHP**), a gateway GSM Android App (**Java**), and automation software to inject data into Odoo ERP (**Python**).
- Develop IOT system for product monitoring purposes (**Arduino-C**).
- Deploy and maintain Odoo12 & 14 Community Edition in AWS EC2
- Main stack across projects: **Plain PHP, Laravel, React.js**, Android (**Java** via Android Studio), **Python** (Tkinter for desktop automation), Arduino (**C/C++**) for IoT systems.

Farm Manager at Fatihin KC Farm**December 2018 – October 2020**

- I purchased supplies, checked farmland for issues needing attention.
- I obtained documents, clearances, certificates and approvals from local, state and federal agencies.

Trainee Engineer at Indonesian Aerospace, Bandung**August 2016 – October 2016**

- Worked directly with other departments to deliver the end product (aircraft part).
- Obtained documents, clearances, certificates and approvals.

PROJECTS

- Inerva **Manpower** (Manpower Management System) (React-Laravel-Tailwind)(AI Search-**Vortex AI**)(Extract Poster Data-**Google Vision, Google Doc Ai**)
 - Developed the JPPB module for **Majlis Perbandaran Kangar (IMS@MPKANGAR)** (React-Laravel)
 - Developed Notice of Change module for **NPIS JPS** (Laravel-Vue-Vuetify)
 - Developed Rolling Plan module for **NPIS JPS** (Laravel-Vue-Vuetify)
 - **Zone Inspect Certificate Generator** - React-based tool that lets users fill in data and generate inspection certificates using prebuilt templates. Users can customize layouts, add elements, and adjust styles.
 - **TerraAgra** (crop analysis and field monitoring) (React-Laravel-Tailwind)
 - **Muslimcare** Malaysia (Vue-Laravel-Bootstrap)
 - **IRHAM** Monitoring (PHP+Laravel, React, JWT, TailwindCss, Framer Motion)
 - Wireless Alarm Monitoring (**WAM**) (PHP+Laravel+Blade, Javascript, Bootstrap)
 - **AROWS** (Avialite Remote Working Station) (PHP, Javascript, Bootstrap)
 - Developed **OdooPush** (Python + Tkinter)
 - Developed **PlaneCode** (Airplane Conceptual Design Software)(C#)
 - Deployed Odoo 14 in AWS
 - R&D **LoTUS** (Lora Transmission Universal Sensor)(Arduino + Node-Red)
 - Developed **Gateway GSM** (Android Studio-Java)
 - Developed **Intern Center** (PHP + XMLRPC)
 - Developed small side project with React-Native
- *More detailed project information upon request.

SKILLS

Language	Spoken			Writing		
	Excellent	Good	Average	Excellent	Good	Average
Malay	✓			✓		
English		✓			✓	

- Experienced with AI tools and platforms including **Vertex AI, Google Cloud Vision, and Google Document AI**, and integrating these services into production web applications.
- Strong backend experience with PHP (Laravel), with additional experience in Node.js and Spring Boot.
- Proficient in frontend development using HTML/CSS, Tailwind CSS, React, Vue, JavaScript, and ES6.
- Good knowledge of SQL (MySQL, MSSQL), have experience with noSQL (MongoDB)
- Know Python, Tkinter, Arduino programming and Node.js
- Familiar with git and version control
- Have experience in setup and deploying script and WebApps (Odoo ERP) in AWS Ec2
